NAHB at Work: Keeping Housing at Forefront of the National Agenda

NAHB's Advocacy Team Posts Key Wins For Our Members in 2024

In the pivotal 2024 election year, NAHB laid the groundwork to make housing a top priority at all levels of government. Not only was NAHB able to make housing a top-tier issue, we also made progress on key regulatory, codes, workforce development, supply chain, permitting, impact fees and tax issues that will ease the barriers that hinder the construction of new homes and apartments.

Shining a Spotlight on Housing

NAHB played a leading role to ensure that housing was a critical issue throughout the 2024 election cycle by taking the following actions:

- Launched [a 10-point plan](#) to address the housing affordability crisis;
- Shared [our message with media outlets](#) throughout the country;
- [Testified before Congress](#) on five different occasions;
- [Participated at the Republican and Democratic National Conventions](#); and
- [Endorsed nearly 100 bipartisan pro-housing candidates](#) for Congress.

These measures helped position housing as a top election issue. President-elect Donald Trump said: "Government regulations are responsible for more than 25% of the cost of a new single-family home and 40% of the cost of multifamily. We're going to end all of that." And Vice President Kamala Harris repeatedly pledged to work with home builders to construct an additional 3 million new housing units.

PROMOTING OUR MESSAGE
